

K-LOVE provides quality family friendly radio to our family and community. It is positive encouraging music without foul language, sexual connotations or inappropriate D-jays discussions. I'm glad my kids set their wake up radios to K-LOVE. Everything is positive, supportive, meaningful and uplifting. Families need this in today's world. Our community would have a gap if K-LOVE could not broadcast. We need more family friendly supportive radio, not less. Hundreds of thousands of listeners could be impacted. We need K-LOVE's wholesome radio values. Please reconsidered this LPFM station change to continue to support American families. We listen to K-LOVE in the Chicagoland via 94.3 FM. Thanks!
